Introduction:

The main aim of holding "One-Day Conference on Mathematics and Its Applications" is to expose the young faculty of the Universities, Colleges, Research Scholars, other Scientists and students about the importance of mathematics and its role in other disciplines. The core objective of the event is to provide scientific knowledge and guidance to the young talent in the discipline of mathematics. So far as mathematics is concerned, it is the language of all sciences. It is applicable in all subjects including Life Sciences, natural Science, medical sciences, Social Science and Humanities as well. Our target group is research scholars, young colleagues of the Colleges, Universities etc. We have invited experts from reputed Institutions to deliver plenary and keynote lectures on recent advances in the field of mathematics and its applications. The participants can establish a research network with the experts and researchers of great repute. Moreover, we shall try to accommodate interested participants (Teachers) from the School education department. It will be a sort of training cum guidance programme to communicate the knowledge of mathematics to the society.

We are pleased to share that distinguished experts from various Institutes had accepted our invitation to share their research experiences of the subject with the participants.
